SUMMARY

Full Stack Developer with 2+ years of experience delivering scalable, high-performance web applications using React.js, Next.js, Node.js, and modern database systems (MongoDB, SQL). Proficient in building REST APIs, implementing secure authentication flows, and optimizing user interfaces. Adept in integrating AI-driven features using OpenAI APIs. Currently working as a freelancer and actively seeking full-time opportunities to contribute to dynamic product teams.

TECHNICAL SKILLS

- **Frontend:** React.js, Redux, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, RESTful APIs, Authentication (JWT, OAuth, Auth.js, Clerk)
- **Databases & ORM:** MongoDB, MySQL, MSSQL Server, PostgreSQL, Drizzle, Prisma,
- **Tools:** Git, Postman, VS Code, Docker (Basic), ASP.NET (Basic), Github Co-pilot

EDUCATION & CERTIFICATION

- B.Com (2018) – Prahladrai Dalmia Lions College, Malad
- ASP.NET & MSSQL Basics (2022) – Lakshya Institute of Technical Training

WORK EXPERIENCE

Freelance - Full Stack Developer (*Apr 2025 – Present*)

Freelance Full Stack Developer with hands-on experience in building web applications using React.js, Node.js, Express, and SQL. Skilled in developing scalable frontends and secure backends, integrating REST APIs, and managing databases. Proficient with modern tools like Redux Toolkit, Prisma ORM, and React Hook Form. Strong understanding of authentication, RBAC, and multi-tenant architecture. Focused on clean code, performance, and timely delivery.

BCOD Web Solution Pvt. Ltd. – Full Stack Developer (Dec 2022 – Dec 2024)

As a Full Stack Developer at BCOD Web Solution Pvt. Ltd., I manage and maintain ASP.NET-based websites, develop and deploy web applications using React.js, Next.js, and Node.js, and create REST APIs. I integrate payment gateways like Razorpay and PhonePe and handle server deployments on IIS. My daily work involves working with databases like MSSQL Server and MySQL, implementing secure authentication using Auth.js, and utilizing tools like Git, Visual Studio, and Postman. I collaborate with cross-functional teams to deliver scalable and user-friendly applications.

PROJECTS

1. Senior Citizen Service Booking Platform

Next.js, Supabase, Auth.js, Tailwind CSS

A service booking web application for senior citizens to request at-home services such as doctors, physiotherapists, and caretakers. Built using Next.js and Supabase with secure login flows via Auth.js.

2. Digital Book Exchange System

Node.js, Express.js, Mysql

Developed backend APIs for a digital platform that tracks book ownership and sharing between users. Implemented efficient data models and ensured secure data handling.
